# CPN Provider View – Quick Reference Guide

For CPN password reset or assistance please call the service desk at x7520.

To log in to CPN click on Security, Log On, and enter your ¾ ID and temporary password.   On select patient screen, click cancel and will bring up default view. Go back into Security and click on Change Password. May use your Portal/Network password or one that has at least 7 characters, include upper and lower case letter and one number.

11/8/2012 **Double click pt name in NICU Roster to move to patient banner for viewing.**

CPN Tab Review

Use the scroll bars to the right and bottom of the screen to view previous dates and times. When you click on a tab at the top there may be tabs at the bottom that will display additional information. If you cannot see your tabs at top, go to HOME and back to your pt list.
